

### How to view your images

Insert the CD into the drive. The CD will automatically run the software to view the images.

#### If auto run is not enabled:

On the desktop right click on My Computer, choose OPEN and double click on the "D" drive. This will launch the images.

#### If Internet Explorer blocks pop-ups:

Click on the warning bar and select "allow blocked content", then Click on YES, then Click on Advance Viewer and YES once again. This will launch the images
